## A Day in the Economic Empowerment Programme for PWDs

*Head, Group Communications (Malaysia) & Corporate Sustainability Elizabeth Wee helped with the baking*

During a visit to Selangor Cheshire Home, HSBC staff, led by Elizabeth Wee, Head, Group Communications (Malaysia) and Corporate Sustainability, spent half a day with participants of the Economic Empowerment Programme at the Selangor Cheshire Home.

Ms Wee not only learned how the programme ran but also spent some time dressing Mexican buns with single mothers during their baking period.

Selangor Cheshire Home provides these single mothers with the opportunity to earn an income through the baking of various breads, cakes and pastries.

The Economic Empowerment Programme, developed by Selangor Cheshire Home in collaboration with the National Council of Cheshire Home Malaysia, aims to equip persons with disabilities (PWDs) with the necessary skills to ensure that they are independent or self-sufficient.

HSBC Malaysia contributed RM51,000 towards this programme.
