HSBC Bank Malaysia Berhad has again partnered the British Council to provide training workshops to English language secondary school teachers. Over 1,000 teachers have been trained since the inception of this programme in 2002.

A seminar entitled “Reading Across Cultures: Teaching English through Literature”, was held early February in conjunction with the LILT programme. This was the first British Council seminar to bring together secondary and tertiary English language and literature education professionals from across the East Asian region. HSBC Malaysia sponsored the cocktail.
