

Pacific Dana Aman

FUND OBJECTIVE

Aims to provide the Unitholders with consistently above average returns in both income and capital growth over a medium to long-term period by investing in a wide portfolio of authorised securities over investments which comply with Shariah principles.

REVIEW & OUTLOOK AS AT END MARCH 2011

- The equity allocation of Pacific Dana Aman increased to 88.93% from 82.01% recorded in the previous month mainly due to price appreciation as well as gross income distribution of 2.5 sen per unit (or distribution yield of 4.17%) at the end of the month.
- The Fund was a net buyer of equities in the month. Positions were increased in undervalued laggards in oil and gas and telecommunication sectors. The Fund's overweight position in construction was increased on more positive newsflow ahead. The Fund also initiated a trading position in a low cost carrier on price weakness.
- The Fund reduced positions in some thematic plays on price strength, and realised profits from its timber holdings following recent strong price performance.
- The Fund will continue to realise profits on market strength and will look to build positions in undervalued laggards as well as participate selectively in thematic plays.

FUND MANAGER: PACIFIC MUTUAL FUND BHD

[^] Volatility Factor (VF) as at 28 February 2011: 16.4. Volatility Class (VC) as at 31 December 2010: High (above 15.5 and below/same as 18.6). VF means there is a possibility for the Fund in generating an upside return or downside return around this VF. VC is assigned by Lipper based on quintile ranks of VF for qualified funds. VF is subject to monthly revision and VC is revised every six months. The Fund's portfolio may have changed since this date and there is no guarantee that the Fund will continue to have the same VF or VC in the future. Presently, only funds launched in the market for at least 36 months will display the VF and its VC. Source: Lipper.

This leaflet provides general information and does not have regard to any specific investment objective, financial situation, or particular personal need. The performance of the Fund is calculated on a bid-to-bid basis including any capital gains and reinvested income distribution. Master Prospectus dated 15 November 2010, Supplementary Master Prospectus dated 22 December 2010 and Second Supplementary Master Prospectus dated 3 March 2011, which are to be read together, are obtainable at our offices. They have been registered with the Securities Commission Malaysia, who takes no responsibility for their contents. Units will only be issued when we receive the official application form referred to in and accompanying the Prospectuses. Investors should study the Prospectuses, and consider the fees and charges before investing. It should also note that distributions and investment value do go up or down and past performance may not be repeated. This Fund is subject to company specific risk. Description of the specific risk can be obtained from Master Prospectus dated 15 November 2010.
