

Revision of Product Disclosure Sheet of All HSBC Debit Cards

Date: 08 May 2020

Dear Valued Customers,

A new MyDebit Cash Out function will be introduced to your Debit Card, effective 11 May 2020. This is a new function where all HSBC debit cards can be used for cash withdrawals at merchant POS terminals of retail outlets when making purchases.

The daily limit for cash withdrawals, set by default, is RM1,000 (maximum RM500 per transaction). To reduce this limit or turn this function off completely, please visit any HSBC Malaysia branch.

We have updated our Product Disclosure Sheet (PDS) of all HSBC Debit Cards, which will take effect on 11 May 2020.

For further details on the MyDebit Cash Out withdrawal limit and its functionality, please refer to the revised Product Disclosure Sheets [here](#).
